SUMMARY

Senior Full-Stack Software Engineer with 7+ years of experience designing and delivering scalable web applications and distributed systems. Specialized in .NET Core, NestJS, Angular, and React.js, with strong backend focus and solid frontend capabilities. Experienced in building SaaS platforms, multi-tenant architectures, and cloud-based systems across AWS, Azure, and GCP. Proven ability to deliver end-to-end solutions, from system design and API development to frontend implementation, testing, and CI/CD pipelines. Strong focus on performance, scalability, and maintainable architecture in distributed environments.

ARCHITECTURE & ENGINEERING FOCUS

- Microservices & Distributed Systems
- Multi-tenant SaaS Architectures
- Clean Arquitecture
- Domain Driven Design
- CQRS
- Event-Driven Systems
- Cloud-Native Applications (AWS, Azure, GCP)
- API Design (REST, GraphQL)
- CI/CD & Automated Testing
- Scalable System Design

EXPERIENCE

ISU Corp — Full-Stack Engineer *Nov 2025 – Present*

- Developed backend services using ASP.NET Core for multi-tenant SaaS platforms
- Built full-stack features using NestJS, Vue.js, and TypeScript
- Integrated third-party services (Stripe, Twilio, SendGrid)
- Designed and maintained CI/CD pipelines with GitLab CI
- Worked with AWS services (RDS, S3) and GCP (functions)
- Took ownership of deployment on VPS (DigitalOcean droplets)
- Contributed on frontend development using Angular and Firebase
- Collaborated in distributed agile teams

Tech Stack: .NET Core, NestJS, Vue.js, TypeScript, AWS, GitLab CI

EzPraxis — Software Engineer *Jun 2025 – Oct 2025*

- Developed backend services using ASP.NET Core
- Built frontend modules using Angular

- Implemented real-time communication features using AWS Chime SDK
- Created unit and integration tests (xUnit, Jest)
- Participated in API design and system integration

Tech Stack: .NET Core, Angular, AWS Chime, xUnit, Jest

Doce Leguas S.L. — Senior Software Engineer *Nov 2024 – May 2025*

- Developed full-stack applications using Angular, .NET Core, and Python
- Designed AI-powered features using LangChain and LLM workflows
- Improved architecture across distributed systems
- Implemented automated testing with Cypress and Jest
- Optimized performance and scalability

Tech Stack: .NET Core, Angular, Python, LangChain, Cypress, Jest

DSpot Sp. z o.o — Full-Stack Developer *Oct 2021 – Jan 2024*

- Developed frontend applications using React.js and Angular
- Built backend services using NestJS and ASP.NET Core
- Designed REST and GraphQL APIs
- Improved system performance and maintainability
- Worked in distributed agile teams

Tech Stack: React.js, Angular, NestJS, .NET Core, GraphQL

Independent Software Engineer *2019 – 2021 | 2024*

- Designed system architecture and database models
- Built REST APIs using ASP.NET Core
- Developed frontend applications using Angular and TypeScript
- Implemented testing pipelines (unit, integration, e2e)

Tech Stack: .NET Core, Angular, TypeScript, SQL

Computational Mechanics Researcher *2015 – 2018*

- Implemented Linear Regression model using scikit-learn

Tech Stack: scikit-learn, NumPy, Pandas

SKILLS

Backend: .NET Core, ASP.NET Core, NestJS, Express.js, Django, REST APIs, GraphQL
Frontend: Angular, React.js, Next.js, Vue.js
Databases: PostgreSQL, MySQL, SQL Server, Oracle, SQLite, MongoDB, Redis, Firestore
Cloud & DevOps: AWS (RDS, S3, Cognito, Chime), Azure, Google Cloud Platform, Docker, CI/CD (GitLab CI)
Programming Languages: C#, TypeScript, JavaScript, Python, SQL
Testing: xUnit, Jest, Cypress, Integration & End-to-End Testing

LANGUAGES

• Spanish (Native)
• English (C1 – Advanced)
• French (B1 – Intermediate)
• Russian (A1 – Beginner)

EDUCATION

Master in Applied Computer Science (Best Graduate)
University of Ciego de Ávila, Cuba — 2013–2014

Computer Engineer
University of Ciego de Ávila, Cuba — 2004–2012

CERTIFICATIONS

AWS Cloud Technical Essentials —
